# ALPARSLAN AKBAS
## .NET DEVELOPER

## WORK EXPERIENCE

| | |
|---|---|
| 2021 | **Intern** |
| | Web Design works and databases works and care at my school. |
| 2022-2023 (6 Month) | **Software Developer OdakGIS** |
| | Worked on OdakGIS (Enterprise Resource Planning software) and OdakGIS (Web Service Security Gateway) projects. I used technologies such as .Net (Mvc, Core), Angular and Postgresql Database. |

## EDUCATION

| | |
|---|---|
| 2013 - 2017 | **HİGHT SCHOOL** |
| | Ataturk Anadolu Hight School |
| 2019 - 2021 | **VOCATİONAL SCHOOL** |
| | Yuksek Ihtisas University / Computer Programmer |

## CERTIFICATES

| | |
|---|---|
| 2022 | Asp.Net Mvc 5 |
| 2022 | Asp.Net Core Entity Framework |
| 2022 | Asp.Net Core Mvc |
| 2022 | Asp.Net Core API Rest Full Services |
| 2022 | Asp.Net Core JWT Token |
| 2022 | Asp.Net Core Unit Test |
| 2022 | Asp.Net Core Identity Server4 |
| 2022 | Asp.Net Core Docker |
| 2022 | Asp.Net Core SignalR |
| 2022 | HTML-CSS-JavaScript |
| 2022 | Angular - TypeScript |
| 2022 | Elasticsearch |
| 2022 | Redis |
| 2022 | Dapper |
| 2022 | Signal-R |
| 2022 | Design - Pattern |
| 2023 | React |

## MY RESUME

Before I started my software career, during my high school years, I worked on web hacking projects on various platforms. In the later years of high school, I got introduced to Java, but at that time, there were more Turkish resources available for C#. Therefore, I started my career in C#. I wanted to study computer engineering at university, tried twice but didn't succeed, so I graduated in the field of computer programming. After graduating, I spent two years working on C# and .Net, improving myself. From August 2022 to January 2023, I worked as a software developer at OdakGIS in Ankara for six months. Currently, I'm selling projects as a freelancer, but my main goal is to work with companies where I can improve myself and gain experience. I can work in Ankara, Izmir, and Bursa, but my preference is remote work. I'm looking forward to job offers.

## SKILLS

Asp.Net Mvc5 / Core +5

Asp.Net API Services / Soap

Angular+12

Web Design

Data Bases

Docker

Unit Test

IdentityServer4 OAuth 2.0

Redis, Elastic, Dapper

## MY WORKS

**2022 .Net/Angular**

Real Estate Management Portal
- Making enhancements to an existing application using the OpenLayers library.

**2022 .Net/Razor**

My Blog Web Site
- My blog project developed with .Net Core MVC.

**2022 C#/WinForm**

Library Management System
- My library (bookshelf) project developed with WinForms.

**2022 C#/WinForm**

Student Management System
- My student management system developed with WinForms.

**2022 C#/WinForm**

Hospital Booking System
- My hospital appointment system developed with WinForms.

**2022 C#/DevExpress**

Business Automation System
- A management portal that allows a company to control its employees and customers exclusively.

**2023 .Net/Angular**

E-commerce
- An E-Commerce API developed using the Simple Architecture technique, written with Object-Oriented Programming (OOP), SOLID principles, and Clean Code. It contains multiple tables. You can review it on my GitHub address.

**2023 .Net Api**

TwitterXScheduler
- Sending tweet post requests from our custom API using the Tweetinvi API library to interact with the Twitter API.

**2023 .Net/Redis**

Sample Applied Project
- An example project with Redis NoSQL.

**2023 .Net/Elasticsearch**

Sample Applied Project
- An example project with Elasticsearch.

**2023 .Net/Dapper**

Real Estate Project
- A project where both real estate agents and regular individuals can list properties for sale and rent.
